

Since our Marsh Harbour office has closed, some of our guests take the ferry across to Hope Town, BUT have no fear we will pick you up from the Crossing (old ferry dock) Dock at no extra charge aside from gas used in your rental boat's full tank of gas. This way you can avoid the exorbitant prices the Ferries charge . The ride across to Hope Town usually takes 25-30 minutes and can help you get the lay of land (so to speak) and ask any question you may have. If you are already on Elbow Cay we will pick you up from the dock of your choice. The boat ride back the office is a great time to ask questions about the area.

Upon arrival at our dock we will show you the boat & equipment, how to start & run the engine, then on to the office to review & sign the contract, pay for the rental then go thru the chart briefing. Try to allow about 20 minutes for this process. A lot of our guests have just arrived in Abaco & are stressed from travel. You have to just take a deep breath & try to relax. You have arrived & you are on Island Time now, mon. No hurry. Oftentimes we are called upon to take care of an issue that was covered during check in but was not absorbed by the Captain due to stress & /or other distractions.
