

### Hope Town Office

The Hope Town office is situated inside picturesque Hope Town Harbour in Back Creek, only accessible by boat. As you enter the Harbour, keep to the Western side, past the Lighthouse, past Hope Town Marina & the sailboats on the moorings. This office is usually chosen by those guests who are perhaps arriving on one of the Cays late in the afternoon or who prefer not to boat the first day. In this case our guests take a ferry boat to Hope Town or other destination. Once you have settled into your accommodations please give us a call and we will come over and pick you up. Central to Elbow Cay, Lubbers & Tilloo, we can be at your dock in minutes. If you are in Hope Town, just call & we will pick you up from the dock most convenient to you. You would then return to our office, we show you the boat & motor, you sign the contract, we go over the charts with you and then you are off to explore Abaco! The Hope Town office is the location of our Service Department. If you have a problem, our experienced technical staff will have you going in a jiffy! We have light spinning rods available for rental. Internet access is also available should you desire.
